### Whom do we work with?

From 2016 to 2019 we partnered with number of Social Organisations where good % age of its annual profits is aligned to. This was so as to solve the environmental crisis that has affected the country at large e.g. drought and floods.This forms part

of our primary social responsibility activities within the society so as to make the world a better place. The foundation also helps in curbing poverty by educating the less fortunate children so that they can improve their living standards.

Today, the company has the privilege to connect many people and institutions with exceptional projects' that they tackle and promoting development has always been the company's main concern. What started as a small humble technology and infrastructure company has grown into one of the most significant drivers of development enhancement in India.

### **Our Leadership**

The company is headed by the able directors and with a Chief executive who manages most of the company issues.
